

Description of the position: **Claims Expert/Team leader (cat I) (56 Working days)**

Contract: long-term

Location: Kenya

Project title: Short term technical assistance for the evaluation of contractual claims for the project "*Nairobi Missing Link Roads and Non-Motorised Transport Facilities*"

Overall Objective: The global objective of this assignment is to provide an independent technical and financial opinion on the contractual claims submitted by the Contractor that will allow the Contracting Authority and the Supervisor to reach a fair and justifiable decision on these claims.

Expert profile CAT I

The expert will be in charge of the revision and final production of all the mission deliverables, organizing the team coordination for the duration of the mission, and will ensure the quality and timely delivery of all products.

Education and skills

- University Degree in Civil Engineering or similar related discipline, or equivalent professional experience of at least 20 years.
- Being an accredited member of an international or national professional body and holding a certificate of registration from a recognized arbitration body is desirable. Qualified membership on a Dispute Adjudication Board is acceptable.
- Excellent command of written and spoken English

General professional experience

- Minimum 15 years of combined international post-qualification experience in design, tender documentation and / or construction management of road construction contracts, or similar related activities.

Specific professional experience

- must have previous working experience in contract administration of at least 2 road projects similar to the Missing links project at the level of Resident Engineer / Contractor's project manager;
- shall have extensive prior experience as a Claims Expert deployed on evaluation of civil engineering contractual claims for extension of time & cost in at least 3 road projects similar to the Missing links project;
- familiarity with EDF Works Contract documents is desirable;
- Previous experience in urban roads will be an advantage.
- Previous working experience in developing countries, and preferably in Sub-Saharan Africa is highly desirable.

Location & Duration

The assignment is expected to commence in May 2017.

The duration of the assignment is **730 calendar days** and scheduled to be undertaken tentatively in 4 missions of 6-monthly intervals.
